Cairo, Egypt

Detail-oriented and creative Front-End Developer with 3+ years of experience building responsive, accessible, and high-performance web applications. Proficient in HTML5, CSS3, JavaScript (ES6+), and frameworks such as React.js, Next.js, Redux, and Tailwind CSS. Skilled in RESTful API integration, component-based architecture, and Agile methodologies. Passionate about writing clean, maintainable code and delivering intuitive user experiences through close collaboration with cross-functional teams.

Education

Bachelor of electronic engineering at Menufia University, Menufia, Egypt

October 2020 - June 2025

Electrical, Electronics, And Communications Engineering

Employment History

Front-End Developer (React.js / Next.js) at Hight Level Technology, Mansoura, Remote

October 2025 - Present

- Develop responsive, high-performance web interfaces from UI/UX designs using React.js, Next.js, and TypeScript.
- Integrate REST and GraphQL APIs using ReactQuery while managing state with Redux, Zustand.
- Optimize performance, SEO, and user experience across all devices.
- Build reusable, maintainable components using Tailwind CSS and ShadCN UI.
- Improve user experience and accessibility across all devices.
- Write clean, maintainable, and testable code using modern best practices.

Frontend Developer | React.js at Smart Sigma, Cairo, Egypt

March 2024 - May 2025 • [↗](#)

- Built and maintained responsive web applications using React.js, JavaScript, HTML5, and CSS3.
- Developed an ERP system for a course academy with role-based access, scheduling, and real-time data.
- Integrated APIs using React Query to manage complex state and improve performance.
- Worked in Agile sprints to meet deadlines and track progress.

React Developer at SurveyExperience, Germany, Remote

March 2023 - June 2023

- Developed reusable components to accelerate feature delivery and reduce code duplication.
- Contributed to improving the team's development workflow through Git version control.
- Built a website builder with reusable components.

Frontend Developer at Designs4It, United States, Remote

February 2022 - February 2024

- Translated UI/UX designs into clean and interactive web pages.
- Optimized front-end performance to improve load speed and scalability.
- Ensured cross-browser compatibility across modern and legacy systems.
- Regularly updated the codebase and resolved compatibility issues.

Skills

Frontend Development (HTML5, CSS3, Tailwind CSS, JavaScript, RESTful APIs, React.js, Next.js, Redux / ReactQuery, Agile / Scrum)

Projects

CoreFit App (Graduation Project) • [↗](#)

Developed the complete front end of a mobile-friendly e-commerce and playground booking app using React.js and Tailwind CSS. The app allows users to browse playgrounds, check availability, book time slots, and manage payments. Integrated real-time updates and booking status using React Query, with API communication to an ESP module and Arduino Uno that manages on-site hardware like gate access to the playground through a one-time password that is generated on booking.
